SUMMARY

I am a passionate and skilled Frontend Developer with 3 years of experience in building responsive and visually appealing web applications. Also proficient in modern frontend technologies, including HTML, CSS, SASS, Bootstrap, Tailwind CSS, React, and Next.js. With strong background in developing dynamic and user-friendly interfaces. Adept at working in fast-paced environments and collaborating with cross-functional teams to deliver high-quality digital solutions.

PROFESSIONAL SKILLS

- Frontend: HTML, CSS, SASS, Bootstrap, Tailwind CSS, JavaScript, React, Next.js
- Database: MongoDB
- Version Control: Git, GitHub
- Tools: Visual Studio Code, Chrome DevTools, Postman, npm, Vercel
- Continuous integration tools
- Responsive design

WORK EXPERIENCE

FRONT END DEVELOPER

(2024)

Fasyl Technology Group

- I developed responsive and interactive user interfaces using HTML, CSS, and JavaScript, ensuring compatibility across various devices and browsers.
- I led the implementation of React and Next.js for dynamic single-page applications, optimizing performance and enhancing user experiences.
- I designed and integrated reusable UI components with Bootstrap and Tailwind CSS, streamlining the development process and maintaining design consistency.
- I collaborated with backend developers to connect frontend applications with MongoDB databases, ensuring efficient data retrieval and storage.
- I participated in code reviews, provided constructive feedback, and contributed to the continuous improvement of development processes.
- I worked closely with UI/UX designers to translate mockups and wireframes into fully functional websites and web applications.

FRONT END DEVELOPER INTERN

(2023)

Tech Studio Academy

- I assisted in building and maintaining the frontend of several web applications, focusing on responsive design and cross-browser compatibility.
- I developed reusable and maintainable CSS and JavaScript code to enhance the scalability of web applications.
- I collaborated with senior developers to migrate legacy codebases to modern frameworks like React and Next.js.
- I integrated third-party APIs and handled asynchronous data fetching using Axios and the Fetch API.
