WORK EXPERIENCE

Front-End Developer
Fasyl Technology Group
(2024)

- I developed responsive and interactive user interfaces using HTML, CSS, and JavaScript, ensuring compatibility across various devices and browsers.
- I spearheaded the integration of React and Next.js to create high-performing, dynamic single-page applications.
- I designed and implemented reusable UI components with Bootstrap and Tailwind CSS, enhancing development efficiency and design consistency.
- I worked collaboratively with backend developers to integrate MongoDB databases, ensuring seamless data management and retrieval.
- I contributed to code reviews, provided constructive feedback, and championed best practices to improve team productivity.
- I transformed UI/UX mockups and wireframes into fully functional, user-centric web applications.

Front-End Developer Intern
Tech Studio Academy
(2023)

- I supported the development and maintenance of responsive web applications, prioritizing user experience and accessibility.
- I refactored legacy codebases into modern frameworks such as React and Next.js, improving performance and scalability.
- I implemented third-party API integrations and managed asynchronous data handling using Axios and the Fetch API.
- I collaborated with senior developers to optimize project workflows and enhance application performance.
